

Wisteria Arch on Avery Island, Today

WISTERIA ARCH ON AVERY ISLAND, CIRCA 1925

Back in the day,
**WE HAD TO WALK TO WORK
ALONG A DIRT ROAD.**
Come to think of it, we still do.

If it seems like time stands still on Avery Island, Louisiana, it's because it kind of does. The years have passed, but the Island remains much the same as it was back in 1868, the year we first perfected TABASCO® brand Pepper Sauce. A hundred and forty years later, our morning commute is the same as ever – and so is the recipe we use for making TABASCO. Because just like you'd never dream of changing the way your mother makes her chili, we'd never dream of changing the way TABASCO tastes in it.
